

News from BARALAN - 08/10/09
Skin care round packaging

Baralan probably has the wider range of cylindrical bottles with accessories.

Here is just a small selection of our round packages with some details:

1- Minerva Jar 50 SW + Metide Alta :
this is the biggest superweight jar of the new line available in 15ml/30ml/50ml.
Peculiar to these jars is the double start neck GPI 40 that allows a vertical guaranteed closure.

A double shell aluminum caps or an high quality PP/SAN caps are suitable for a top packaging.

2 & 3 – DM18 - New droppers available for GPI 13/415, GPI 15/415, GPI 18/415 neck.
these new droppers fit with all our bottles and are specifically designed for cosmeceuticals, homeopathic and complementary medicine companies.

4 – CP24/K1 - this is a brand new dispenser (also available GPI 18/415). It's innovation is

the spring placed outside the engine (under the actuator). It avoid any contacts between creams with metal parts.

5 – Athena 30 - this bottle matched with cap Sparta 30, due to a 30/400 neck, is specifically indicated for very fluid creams.

The version "S" with sprinkler opening is designated to EDT, perfume products.
